

2019 HOMESTUDY CE

Modern Challenges with the Use of Vasopressin

Goals for this Activity

The purpose of this activity is to provide the participant with a review of vasopressin use in clinical settings and identify cost-effective strategies for use.

Speaker Information

Jerry Altshuler, PharmD, BCPS, BCCCP, *Critical Care Pharmacy Coordinator, Director, PGY-2 Critical Care Pharmacy Residency Program, The Mount Sinai Hospital, New York, NY (*Position at the time of the recording)

Learning Objectives

Upon completion of this CE activity, the participant will be able to:

- Explain the physiological rationale for vasopressin utilization in septic shock
- Describe clinical outcomes associated with vasopressin utilization in various clinical settings
- Discuss strategies for vasopressor discontinuation in resolving shock
- Identify strategies to optimize cost effectiveness for vasopressin use
